

Ian Gleason

ianandre@math.uni-bonn.de

Born: May 21, 1992. Mexico City.
Nationality: Mexican, Lithuanian.
Languages: Spanish, English.

Education

BA in Mathematics, UNAM Mexico.	Aug 2010-
Average: 9.96/10 with honors	Nov 2014
Thesis title: “El antiprisma” (<i>The antiprism</i>)	
Supervisor: Isabel Hubard	

Phd in Mathematics, UC Berkeley.	Aug 2015-
Thesis title: “Specialization maps for Scholze’s category of diamonds.”	Aug 2021
Supervisor: Sug Woo Shin	

Currently

Postdoctoral position in Universität Bonn, funded by Scholze’s Lebiniz-Preis.

Talks in Conferences and Workshops

“Variedades de Shimura locales” (Expository) <i>5th Meeting of Mexican Mathematicians in the World</i> .	
BIRS-Casa Matemática Oaxaca.	Dec 2021

“On the geometric connected components of unramified local Shimura varieties” <i>Midwest Representation Theory Conference 2020</i> .	
Virtual Conference: https://homepage.divms.uiowa.edu/~mkrishna/2020mrtc/program.html	Oct 2020

“An introduction to p-divisible groups” (Expository) <i>50° Congreso Nacional de la Sociedad Matemática Mexicana</i> .	
Instituto de Matemáticas, UNAM. Mexico City, Mexico.	Dec 2017

“Products in abstract polytopes and the antiprism” <i>Kaleidoscope: A conference in honor of Javier Bracho</i> .	May 2014
------------------------------------------------------------------------------------------------------------------	----------

Ixtapa Zihuatanejo, Mexico.

Talks in seminars as invited speaker.

“The specialization principle for p -adic kimberlites” *MPIM, Arbeitsgemeinschaft Arithmetische Geometrie*.

Nov 2021

“On the geometric connected components of moduli of p -adic shtukas” *CIMAT, Seminario álgebra conmutativa y geometría algebraica*.

Apr 2021

“On the geometric connected components of moduli of p -adic shtukas” *MIT, number theory seminar*

Mar 2021

“On the geometric connected components of moduli of p -adic shtukas” *University of Michigan, umich.zoom.us*

Jan 2021

Preprints and work in progress

Johannes Anschütz, Ian Gleason, João Lourenço, and Timo Richarz. On the p -adic theory of local models. *arXiv preprint arXiv:2201.01234*, 2022

Ian Gleason. On the geometric connected components of moduli spaces of p -adic shtukas and local shimura varieties. *arXiv preprint arXiv:2107.03579*, 2021

Ian Gleason. Specialization maps for scholzes category of diamonds. *arXiv preprint arXiv:2012.05483*, 2021

Publications

Ian Gleason and Isabel Hubard. Products of abstract polytopes. *Journal of Combinatorial Theory, Series A*, 157:287–320, 2018

Ian Gleason and Isabel Hubard. The antiprism of an abstract polytope. *ARS MATHEMATICA CONTEMPORANEA*, 2021

Teaching

Teaching Assistant at UC Berkeley, Berkeley, CA.

MATH 110 (Linear Algebra for STEM). 3 sections, 1 semester	2020
MATH 250A (Graduate Course on Abstract Algebra). 1 section 1 semester	2019

MATH 54 (Linear Algebra). 2 sections 1 semester	2017
MATH 54 (Linear Algebra). 2 sections 1 semester	2016
MATH 1B (Calculus). 2 sections 1 semester	2016
MATH 1A (Calculus). 2 sections 1 semester	2015

Teaching Assistant A at UNAM, Mexico City, Mexico.

Logic I.	2013
----------	------

Awards and Scholarships

Kenneth Ribet & Lisa Goldberg Award in Algebra Mathematics Department of UC Berkeley	2020-2021
-----------------------------------------------------------------------------------------	-----------

UC-MEXUS CONACYT Doctoral Fellowship for Mexican students	2017-2021
-----------------------------------------------------------	-----------

Support Programme for Research Projects and Technological Innovation. DGAPA-UNAM	2014
-------------------------------------------------------------------------------------	------

International Student Mobility Scholarship. UNAM- DGEI.	2013
------------------------------------------------------------	------

Scholarship for Science Olympiads. Mexican Academy of Science.	2010 - 2012
-------------------------------------------------------------------	-------------

Service

Reviewed an article for Annals of Mathematics.
